Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1644

DETAILED ACTION

1. Applicant's amendment, filed 01/22/07 is acknowledged.
2. Claims 79-90 are pending.
3. In view of Applicant's Amendment filed on 01/22/07 the previous Restriction Requirement mailed on 12/15/06 is hereby vacated.

The new Restriction Requirement is set forth below. Examiner apologized for any inconveniences.

Restriction Requirement

4. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
 - I. Claims 80 and 81 are drawn to a method of generating a tissue in a subject, wherein the tissue is mesenchymal tissue, comprising administering untransformed STRO1^{bright} cells classified in Class 424 , subclass 577.
 - II. Claims 82 and 83 are drawn to a method of generating a tissue in a subject, wherein the tissue is non- mesenchymal tissue, comprising administering untransformed STRO1^{bright} cells classified in Class 424 , subclass 577.
 - III. Claim 86 is drawn to a method of generating a tissue in a subject, comprising administering transformed STRO1^{bright}, classified in Class 424 , subclass 577.
 - IV. Claims 87 and 89 are drawn to a method of generating a tissue in a subject, wherein the tissue is bone marrow, comprising administering untransformed STRO1^{bright} cells classified in Class 424 , subclass 577.

5. Claims 79, 84, 85 and 90 link inventions of Groups I-IV. The restriction requirement between the linked inventions is subject to the nonallowance of the linking claim(s), claims 46-50 and 54-58 or 62-66 and 70-74. Upon the allowance of the linking claim(s), the restriction requirement as to the linked inventions shall be withdrawn and any claim(s) depending from or otherwise including all the limitations of

Art Unit: 1644

the allowable linking claim(s) will be entitled to examination in the instant application. Applicant(s) are advised that if any such claim(s) depending from or including all the limitations of the allowable linking claim(s) is/are presented in a continuation or divisional application, the claims of the continuation or divisional application may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

6. Groups I and IV are different methods. These inventions are different with respect to ingredients, method steps, and endpoints which require non-coextensive searches ; therefore, each method is patentably distinct.

7. These inventions are distinct for the reasons given above. In addition, they have acquired a separate status in the art as shown by different classification and/or recognized divergent subject matter. Further, even though in some cases the classification is shared, a different field of search would be required based upon the structurally distinct products recited and the various methods of use comprising distinct method steps. Moreover, a prior art search also requires a literature search. It is an undue burden for the examiner to search more than one invention. Therefore restriction for examination purposes as indicated is proper.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

9. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michail Belyavskyi whose telephone number is 571/ 272-0840. The examiner can normally be reached Monday through Friday from 9:00 AM to 5:30 PM. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on 571/ 272-0841.
